

Information about the accredited person

1. Applicant	
Applicant type	Legal entity
Organizational and legal form of a legal entity	Federal state budgetary institutions
Full name of the legal entity	FEDERAL BUDGETARY INSTITUTION "STATE REGIONAL CENTER FOR STANDARDIZATION, METROLOGY AND TESTING IN MOSCOW AND MOSCOW REGION"
Abbreviated name of a legal entity	FBI "ROSTEST-MOSCOW"
Taxpayer identification number (TIN) of a legal entity	7727061249
Industrial Enterprises Classifier (IEC) of a legal entity	772701001
Primary State Registration Number (PSRN)	1027700066415
Address of the location of the legal entity	117418, RUSSIA, MOSCOW CITY, NAKHIMOVSKY AVENUE, 31
Name of the tax authority	Interdistrict Inspectorate of the Federal Tax Service № 46 in Moscow
Date of registration with the tax authority	12.10.2008
Full name of the head of the legal entity	Bas Vitaly Nikolaevich
Position of the head of a legal entity	General director
Legal entity phone number	+74955440000
Legal entity email address	info@rostest.ru

2. Accredited person	
Status	Active
Date of entry in the register of information about the accredited person	23.03.2016
Included in the national part of the Unified Register	Yes
Type of accredited person	Testing laboratory
Name of the standard	GOST ISO / IEC 17025-2019 General requirements for the competence of testing and calibration laboratories
Unique number of the accreditation record in the register of accredited persons	RA.RU.21A343
Name of the accredited person	Center for Physical, Chemical and Biological Testing № 300 of the Federal Budgetary Institution "State Regional Center for Standardization, Metrology and Testing in Moscow and the Moscow Region"
Abbreviated name of the accredited person	TC № 300 FBI "Rostest-Moscow"
Full name of the head of the accredited person	Vorontsova Olga Leonidovna
Position of the head of the accredited person	Head of the Center
Accredited person's phone number	+7 4956682880
The phone number of the head of the accredited person	+7 4956682900
Accredited person's email address	olgaLV@rostest.ru
Internet website address	www.rostest.ru
Address of the place of business	117418, RUSSIA, Moscow, avenue. Nakhimovsky, 31 id: 684013; 141101, RUSSIA, Moscow region, Shchelkovsky district, Shchelkovo, line 3, building 31, room № 5 id: 745421

3. Accreditation	
Accreditation decision number	A-2143
Date of the decision on accreditation	23.03.2016
Name of the accreditation expert	Deripaska Alexey Sergeevich
Registration number of the entry in the register of accreditation experts	00795
Expert organization	LIMITED LIABILITY COMPANY "REGIONAL EXPERT CENTER"
Scope of accreditation	
Description of the scope of accreditation	<p>Testing of products for compliance with the requirements of national, interstate and international standards: Products of the dairy and butter-cheese industry; fat and oil products; fruit and vegetable juice products; bread, bakery and pasta; sugar, granulated sugar, refined sugar; sugar confectionery products; flour confectionery products; products of the canning and vegetable drying industry; products of the wine industry products of the liqueur and vodka, alcohol, brewing, low-alcohol industry and the production of non-alcoholic beverages; drinking water, packaged in containers; mineral drinking medicinal and medicinal table waters, flavored, highly mineralized, (brines) alkaline medicinal table waters, including artificially mineralized ones; starch products; tea, table salt; food additives, flavorings and processing aids; food concentrates; coffee, coffee drinks, chicory; flavoring spices № products of meat and poultry processing industry; eggs and egg products; fish food products; canned food and preserves of fish and seafood; baking yeast; cereals, legumes, oilseeds; tuber vegetables, melons and gourds, greenhouse products; production of gardens, vineyards, perennial plantings; honey and beekeeping products, flower pollen; insulators, concentrates, hydrolysates; bran, flakes; protein products from seeds of cereals, legumes and other crops; drinks, including fermented drinks, tofu and okara; gelatin, starch, dry food broths, xylitol, sorbitol; baby and diet food products; specialized food products, including products of dietary therapeutic and dietary preventive nutrition; Dietary supplements; catering products, justification of the shelf life and storage conditions of food products, perfumery and cosmetic products; stern; feed grain; ethyl technical alcohol; non-food low-fat products; water from water supply sources, purified waste water, waste water; containers, packaging, dishes,</p>

	<p>cutlery, materials, products in contact with food, sanitary and hygienic and medical products; light industry products; products for children and adolescents; toys; air; household chemical goods, synthetic detergents; furniture products; paint and varnish materials, paint and varnish materials in contact with food; fuel, gasoline, fuel oil, lubricants, special liquids, incl. cooling and brake, windshield washer fluids; personal protective equipment, incl. dermatological; building materials for highways, industrial waste, charcoal.</p>
<p>EAEU technical regulations</p>	<p>TR CU 005/2011 Safety of packaging; TR CU 007/2011 Safety of products intended for children and adolescents; TR CU 008/2011 Safety of toys; TR CU 009/2011 Safety of perfumery and cosmetic products; TR CU 013/2011 Requirements for motor and aviation gasoline, diesel and marine fuel, jet fuel and fuel oil; TR CU 014/2011 Safety of highways; TR CU 015/2011 Grain safety; TR CU 017/2011 Safety of light industry products; TR CU 019/2011 Safety of personal protective equipment; TR CU 021/2011 Food safety; TR CU 023/2011 Technical regulations for fruit and vegetable juice products; TR CU 024/2011 Technical regulations for fat and oil products; TR CU 025/2012 Safety of furniture products; TR CU 027/2012 Safety of certain types of specialized food products, including dietary therapeutic and dietary preventive nutrition; TR CU 029/2012 Safety requirements for food additives, flavorings and technological aids; TR CU 030/2012 Requirements for lubricants, oils and special fluids; TR CU 033/2013 Safety of milk and dairy products; TR CU 034/2013 Safety of meat and meat products</p>

4. Government services	
Reduction of the scope of accreditation	S-2010 from 06.09.2021
Reassessment procedure	PK1-501 from 23.07.2021
Expansion of the scope of accreditation	PK1-501 from 23.07.2021
Reassessment procedure	PK1-1885 from 19.09.2019
Expansion of the scope of accreditation	PK1-1885 from 19.09.2019
Reduction of the scope of accreditation	S-1039 from 25.04.2019
Alteration. Other changes	IZ-130 from 20.12.2018
Expansion of the scope of accreditation	RA-262 from 02.08.2018
Reassessment procedure	PK-1246 from 02.07.2017

5. Reduction of the scope of accreditation	
S-2010 from 06.09.2021	
Basis for reducing the scope of accreditation	According to the application
Number of the decision to reduce the scope of accreditation	S-2010
Date of the decision to reduce the scope of accreditation	06.09.2021

6. Reassessment procedure	
PK1-501 from 23.07.2021	
Basis of the passage of reassessment procedure	Clause 3 part 1 article 24 of of Federal Law № 412-FZ – reassessment procedure every five years from the date of accreditation
Number of the decision on passing the reassessment procedure	PK1-501
Date of the decision on passing the reassessment procedure	23.07.2021
Reassessment procedure result	Paragraph 1 part 19 section 24 of Federal Law № 412-FZ on reassessment procedure of an accredited entity and entering the relevant information into the register about the accredited entity in the event that the accredited entity meets the accreditation criteria
Full name of the accreditation expert	Raginevich Zhanna Leonidovna
Registration number of the entry in the register of experts	00370
Expert organization	LIMITED LIABILITY COMPANY "ASSISTANCE"
Technical expert	Zhezlov Boris Pavlovich; Tokmina Olga Veniaminovna

7. Expansion of the scope of accreditation	
PK1-501 from 23.07.2021	
Number of the decision to expand the scope of accreditation	PK1-501
Date of the decision to expand the scope of accreditation	23.07.2021
Full name of the accreditation expert	Raginevich Zhanna Leonidovna
Registration number of the entry in the register of accreditation experts	00370
Expert organization	LIMITED LIABILITY COMPANY "ASSISTANCE"
Technical expert	Zhezlov Boris Pavlovich; Tokmina Olga Veniaminovna
Scope of accreditation	
Description of the scope of accreditation	Autoclaves for the construction industry. Automatic forced air gas burners. Automatic shut-off valves designed for gas burners of gas appliances and appliances of similar application. Automatic electrical control devices. Automatic electrical controls for household and similar purposes. Cement trucks designed for bulk transportation of cement on roads of 1-5 categories. Conversion adapters. Adsorption gas scrubbers with a fixed bed, moving granular adsorbent, fluidized dusty adsorbent of vertical or horizontal type and other devices similar in functionality. Batteries and rechargeable batteries containing alkaline or other non-acidic electrolytes. Active pharmaceutical ingredients. Alcoholic products. Analog and digital radio transmitters. Analog showing electrical measuring instruments of direct action and auxiliary parts to them. Oranges. Equipment for measuring radio interference and noise immunity. Equipment for measuring electrical energy. Equipment for measuring electrical energy of alternating current. Low-voltage switching and control equipment. Low-voltage switching and control equipment in an enclosure. Low-voltage distribution and control equipment. Low-voltage distribution and control equipment. The control equipment is lamp. Column type apparatus. Column apparatuses. Electronic control gears. Devices operating on gaseous fuel. Low-voltage electrical devices. Apparatus operating on gaseous fuels. Apparatus operating on gaseous fuels. Peanut. Gas regulating and safety valves. Industrial pipeline fittings. Pipe fittings. Atmospheric air (hoods). Audio-, video-, audiovisual equipment and equipment for controlling lighting devices. Audio, video and related equipment. Dietary supplement. CDMA 1x spread spectrum base stations and repeaters. Base stations and repeaters IMT-2000 CDMA Direct Spread Spectrum. Small-capacity cylinders for breathing apparatus and self-rescuers with compressed air. Trampolines. Trampolines for home use. Non-alcoholic drinks, fortified drinking waters. Absorbent linen for disabled people.

Non-contact sensors. Viscous oil road bitumens. Bolts, screws, studs and nuts. Fresh lingonberry. Paper and cardboard. Paper diapers. Quick-frozen vegetables and mixtures thereof. Domestic gas cooking appliances with forced convection in ovens and / or grills. Household and similar electrical appliances. Household and similar electrical appliances. Domestic and professional powered lawn mowers, lawn and garden tractors with mowing attachments. Domestic heating gas air heaters with forced convection and auxiliary fan. Household siphons designed for making carbonated drinks at home using liquid carbon dioxide (CO). Radial fans. Vibratory hammers and pile extractors designed for driving and extracting piles, shell piles, metal sheet piles, pipes and other elements in industrial and civil construction. Household video recorders. Plugs, sockets and connectors for industrial use. Plugs, socket outlets, portable sockets and vehicle inputs. Plugs, socket outlets, connectors and vehicle entrances. External AC / DC and AC / AC power supplies. Water. Drinking water (hoods). Natural and waste water. Natural, drinking and waste water. Indoor air. Air circuit breakers. Cotton fiber. Tungsten halogen lamps. Incandescent tungsten bulbs for general lighting. All machines (stationary or mobile) that must be equipped with stationary means of access. All types of energy sources: - power supply, for example, electricity, hydraulics, pneumatics; - accumulated energy due to gravity, compression of springs; - external influences. Recessed luminaires with incandescent lamps. Switches for household and similar fixed electrical installations. Switches for household and similar fixed electrical installations semiconductor switches. Switches, disconnectors, switch disconnectors. Non-domestic gas air heaters with forced convection, without auxiliary fan. Gas burners and gas appliances using combustible gases of the first, second or third family. Forced draft gas burners. Central heating gas boilers type B11BS. Central heating gas boilers. Central heating gas boilers type B. Gas-fired central heating boilers, which are called "condensing boilers" by the manufacturer. Gas-consuming heating units. Electromagnetic field generators with TEM cameras. Flexible tubes. Hydraulic accumulators. Gypsum fiber sheets. Corn gluten. Grills. Freight vertical construction hoists. Cargo-passenger construction hoists. Pneumatic pressure sensors. Two-handed control devices. Whipped frozen fruit, vegetable and fruit and vegetable desserts. Details and articles of furniture made of wood and wood-based materials. Grain and rum distillates, whiskey distillate, alcoholic beverages based on them. Roller cone bits. Automobile roads for general use. Road building materials and products. Road building materials and products. Wood raw materials. Fodder yeast. Dried bakery yeast. Raw wood, timber, semi-finished products and products from wood and wood materials. Light industry products. Ovens. The tin. Animal and vegetable fats and oils. Liquid paints and varnishes and liquid intermediates. Liquid cooling units. Animal and vegetable fats and oils. Flaxseed cake. Fodder soybean cake. Fixed electric immersion heaters for household and similar purposes, intended for installation in a water tank exposed to the atmosphere to heat water to a temperature below its boiling point. Frozen whipped sorbet desserts. Protective and protective-decorative anodic-oxide coatings. Corn. Corn for food and feed purposes. Corn and products of its processing. Cereals and feed. Toys. Book and magazine editions for children and adolescents. Products from confectionery and fat masses for molding. Confectionery products, semi-finished products for confectionery production. Confectionery products, raw materials and semi-finished products. Medical electrical equipment. Products with non-standardized fire resistance and smoke resistance. Road-building products made of natural stone. Textile haberdashery products. Knitted products. Electronic and electrical engineering products. Electrical products. Measuring equipment. Measuring relays and protection

devices. Inverters. Interfaces between controllers and devices. Infrared equipment. Power supplies. Arc welding power supplies (welding current sources). Light sources are electric. Caramel. Synthetic rubbers. Ceramic and silicate bricks and stones, concrete stones, stones and blocks from natural materials. Ketchup. Fruit drinking kissels. Safety valves. Leather. Wheeled and tracked construction frontal single-bucket loaders with engines of at least 15 kW (20.4 hp) on special chassis and special loading modifications of industrial tractors and tractors, designed for loading and unloading and earthmoving operations. Wheel construction front loaders with telescopic boom with increased lift and reach. Fuse terminal blocks. Prams. Combined boilers designed for the production of domestic hot water. Combined busbars. Commercial equipment for radio amateurs. Metal bellows expansion joints for heating networks. Desktop computers. Stationary belt conveyors for bulk materials. Fixed capacitors for electronic equipment. Self-healing shunt power capacitors for AC systems for rated voltage up to 1 kV inclusive. Conditioners. Air conditioners and air source heat pumps. Air conditioners, liquid chillers and heat pumps with electric compressors. Canned beans. Canned poultry-based food for young children. Canned food. Tank containers. Food concentrates. Copra designed for hanging pile drivers on them when carrying out work in industrial and civil construction. Cork stoppers. Pet food. Feed for unproductive animals. Boxes and housings for electrical devices installed in stationary electrical installations for household and similar purposes. Boxes, housings and their parts for building electrical devices into them. Heating boilers. Central heating boilers for gas fuel. Manual valves designed for use in gas appliances. Ball valves, conical and cylindrical valves. Paints for drawing with fingers. Electric wheelchairs. Milling cultivators. Gasoline brush cutters and brushcutters. Brush cutters gasoline-powered motor-cutters. Laser equipment. High-frequency gas-discharge fluorescent lamps. Discharge lamps. Fluorescent lamps. Double-ended fluorescent lamps. Single-capped fluorescent lamps. Tungsten incandescent lamps. High pressure sodium lamps. Lamps for various purposes. LED lamps. Lamps with built-in control gear. Light emitting diode lamps. Light emitting diode lamps with integral ballasts for general lighting with supply voltages over 50. Electric lamps. Winches. Tunnel winches. Scraper winches underground. Medicines. Power lines and electrical substations. Foundry aluminum alloys. Elevators, escalators and passenger conveyors. Quiet machines and equipment. Vegetable marinades. Camelina oil for the food and feed industry. Butter butter. Road marking materials. Textile materials and products. Materials are paint and varnish. Metallic materials. Wall materials. Textile materials. Machines. Machines for the production of corrugated board and machines for the processing of flat board and corrugated board. Drilling and tapping machines. Machines for agriculture and forestry. Road machines, equipment for the preparation of building mixtures. Closed-loop machines for dry cleaning of clothes. Earth-moving machines. Machinery and equipment. Machinery and equipment petrol chain saws. Machines and equipment for logging, resin harvesting and timber floating machines and equipment, timber and forestry tractors, machinery and equipment for lower timber warehouses. Machinery and equipment. Printing equipment. Machinery and equipment. Press-forging machines. Floor transport vehicles. Non-electric hand-held machines. Electric hand-held machines. Hand-held, portable and electric gardening machines. Impact and non-impact drilling machines. Construction machines with internal power supplies. Household tumble dryers. Impact rotary machines. Percussion machines. Grinding machines. Rotating electrical machines. Electric dishwashers for household use. Automatic electric washing machines for household use. Machines, devices and other technical products of all kinds. Machines, devices, technical

products. Medical endoscopes and endotherapy devices. Metal-cutting machines and automatic complexes. Metals. Textile materials. Mechanical thermo - regulators for gas appliances. Mechanical thermo-regulators for gas appliances. Miniature fuse-links for special applications. Mobile machines. LED modules. Light emitting diode modules for general lighting. Photovoltaic modules. Washing machines of the soaking-and-syringe type, designed for washing glass containers. Milk and dairy products. Milk and dairy products, soy products. Milk products. Ice cream and ice cream mixes. Marine navigational equipment and radio communication facilities. Soft containers. Meat and meat products. Meat and meat products of cattle. Meat and meat products. Poultry meat. Cognac drinks. Refillable cylinders. Displacement pumps for hydraulic drives. Circulation pumps. Non-activated mineral powders from industrial waste. Inorganic bulk building materials, building products, industrial waste. Low-allergenic fish products for baby food. Low voltage equipment. Low-voltage complete distribution and control devices. Low voltage fuses. Low voltage decoupling filters. Low-voltage electrical installations. Textile threads. Laptops. First and second generation cordless telephone equipment. Gas cleaning and dust collecting equipment. Arc welding equipment. Contact welding equipment. Equipment for storing large amounts of data. Continuous loading equipment and systems. Information technology equipment. Equipment designed and designed for connection to telecommunication networks. Loading equipment. Printing equipment. Industrial, scientific and medical equipment. Microwave energy equipment. Electronic equipment used in power electrical installations. Overpressure equipment. Pressure equipment. Check valves (swing check valves) metal for general industrial use. Footwear. Oats. Single-ended and double-ended tungsten halogen lamps. Olives or olives. Optical and sound signals. Organic fertilizers. Freestanding and built-in gas cooking appliances. Non-residential gas heating air heaters with forced convection and auxiliary fan. Heating boilers for liquid fuel. Heating boilers with forced air gas burners. Heating boilers, including low-temperature boilers with forced air burners. Cooling liquids. Mine parachutes for cages. Steam cabinets. Perfumery and cosmetic products. Primary and secondary (rechargeable) lithium cells and batteries. Mobile and stationary power plants and mobile power plants with internal combustion engines. Mobile, stationary and non-movable (stationary) electronic uninterruptible power supply systems (UPS). Switches and related accessories for use in consumer electronic systems and building electronic systems. Portable equipment for grounding or grounding and shorting. Portable low voltage decoupling filters. Portable devices running on LPG. Tansy flowers. Drinking water. Drinking water, including natural mineral water. Drinking water, including natural mineral water (extracts). Food products of specialized low-allergenic (hypoallergenic) nutrition. Food products. Food products for baby food. Nutritional supplements. Food products. Food products, food raw materials, food and feed additives. Plate heat exchangers. Plastic elements of the pipeline. Plastics and articles thereof. Tiles. Plates. Household tourist gas stoves. Stoves, ovens, steam ovens and grills. Fruit and vegetable, fruit and berry and vegetable products. Surface absorbers with an expanded liquid surface, film, packed, disc-shaped, with a movable nozzle, with mechanical stirring of liquid, spraying, rotary and other devices similar in functionality. Loading and transporting (forwarders), skidding, feller-bunching, delimiting-bucking (processors), feller-delimiting-crosscutting (harvesters) machines and log loaders. Shell-and-tube heaters for water-to-water heat supply systems. Polymers, metals, electronics. Knitted fabrics. Semiconductor switches and semiconductor devices. Semi-finished products from meat and poultry by-products. Semi-finished meat and meat-containing products. Portable fuel cell power plants. Potentiometric

method for the determination of nitrates. Childcare items. Low-voltage fuses. Safety devices of machines. Electrical measuring converters. Household electrical appliances for cooking. Portable gas devices operating on liquefied petroleum gas. Household gas appliances for cooking. Automation devices and equipment for gas burners and apparatuses (blocks and panels for automatic ignition). Appliances and devices for household and similar purposes. Household refrigeration appliances. Electrical devices for the detection and measurement of flammable gases, toxic gases or oxygen. Electrical measuring instruments. Spicy seasonings. Natural (fresh and mineral) and industrial waters. Uninsulated flexible copper wires. Wired charging system for electric vehicles. Food products, food raw materials. Wine products, juice, non-alcoholic, low-alcoholic, alcoholic, brewing products. Perfumery and cosmetic products. Perfumery and cosmetic products. Products for children and adolescents. Feminine hygiene pads (packages). Yarn. Starting capacitors. Ballasts for gas discharge lamps. Ballasts for fluorescent lamps. Vacuum cleaners. Workplace. Radar equipment used to sound the ground and walls. Radio equipment for ultra-low power active medical implants and associated peripheral devices operating in the frequency range from 9 kHz to 315 kHz. Radio equipment for stations in the fixed service. Radio transmitting equipment. Disconnectors. Plant-based protein drinks made from soy seeds. Rational use of the energy of tubular gas heaters. Pressure regulators. Pressure regulators designed for use with gas burners and gas appliances. Pressure regulators for liquefied petroleum gases for pressures up to 1.6 MPa. Gas / air ratio regulators. Horizontal steel tanks for petroleum products. Resistive DC voltage dividers. Relay with standardized time for industrial use. X-ray systems for screening people for security purposes and the detection of prohibited items. Industrial robots for arc welding. Chamomile flowers. High pressure mercury vapor lamps for general lighting with phosphor coating. Manual machines and machines with manual control. Manual mechanized non-electric reciprocating machines. Hand-held non-electric machines equipped with clamping sleeves, used for stripping using fitted tips (cutters), sharpening stones and files (needle files), as well as small wire brushes mounted on a spindle. Hand-held non-electric machines equipped with small oscillating and reciprocating circular saws used for sawing. Manual non-electric machines equipped with a clamp (yoke) for pressing in and used for riveting, punching holes, crimping, pressing and cutting off metal, plastics or other materials. Hand-held, non-electric machines designed for tightening or installing fasteners. Hand-held non-electric machines designed for polishing and grinding with all kinds of movements. Hand-held non-electric machines designed for mounting, fastening or removing rivets with a bursting and non-bursting core, plugs and fasteners on one side of a workpiece made of metal, plastic and other materials. Hand-held non-electric machines designed for cutting wires, cables, etc. and for crimping, for example a plug to the end of a cable. Hand-held grinders designed for grinding and cutting with abrasive tools. Fish and fish products. Self-propelled vehicles driven by electric motors. Sapropels, peat. Pile-driving hammers designed for driving predominantly reinforced concrete piles, metal pipes, sheet piles. Night lamps for mounting in a mains socket. Indicating light devices for stationary electrical installations for household and similar purposes. LED modules. Lead and aluminum sheaths for power cables. Agricultural seeds. Signaling in low-voltage electrical installations in the frequency range from 3 to 148.5 kHz. Fruit ciders. Power insulated wires. Power converters for use in photovoltaic systems. Synthetic latexes. The charging system for electric vehicles is wired. Trunking systems and special trunking systems for electrical installations. Valve tightness control systems for gas burners and gas appliances. Resistance heating

systems for industrial and commercial applications. Extra-low voltage lighting systems for incandescent lamps. Variable speed electric power drive systems. Traffic control systems. Photovoltaic systems. Busbar systems. Variable speed electric drive systems. Variable speed electric drive systems. Electrically conductive duct systems for electrical installations. Hearing Aids. Lubricants, oils and special fluids. Washes from the surfaces of objects of the surrounding production environment. Washes from the hands of the personnel. Soy products. Soy food product. Welded connections. Electrical connectors for household and similar purposes. Electrical plug connectors for household and similar purposes. Connectors for electrical appliances for household and similar general purposes. Connecting devices for low-voltage circuits for household and similar purposes. Connecting devices with screw terminals. Fruit juices. Juice products. Brewing malt. Nipples. Baby pacifiers. Vessels and apparatus. Steel welded vessels for high pressure. Pressure vessels. Specialized food products. Alloys, precious metals, autocatalysts, geochemistry. Oral hygiene products. Individual protection means. Security alarm means. Pressure stabilizers. Steel welded vessels and apparatus. Household woodworking machines. Metalworking machines. Static switching systems. Static switching systems (STS). Static meters of active energy of accuracy classes 0.2S and 0.5S. Static meters for active energy of accuracy classes 1 and 2. Static reactive energy meters. Stationary and mobile machines. Stationary cookers, hobs, ovens and similar appliances. Edible poultry by-products. Ship navigation and radio equipment. Dry and liquid chemicals. Powdered milk, dry mixes for ice cream, processed cheese. Drum-type drying machines. Cheese. Thermized pizza cheeses. Electronic taximeters. Solid and amorphous chemicals. Textile. Textile materials. Television receivers. TV receivers. Heat pumps. Shell and tube heat exchangers. Thermal deaerators. Thermoelectric flame control devices switched on by means of a thermocouple. Other technical means active from the point of view of electromagnetic compatibility. Other technical means active from the point of view of electromagnetic compatibility. Security alarm technical means. Technical means of radio communication. Cotton fabrics and piece goods, from man-made yarn and mixed. Cloak and jacket fabrics made of synthetic threads. Rubber and plastic coated fabrics. Woven textiles. Potted tomatoes. Small tractors, walk-behind tractors and motor-cultivators. Transformers, reactors, power supplies and combined devices thereof. Energy efficiency requirements and test methods. Pipeline accessories. Pipelines. Plastic pipelines. Steel technological pipelines. Pipes and pipeline parts made of thermosetting plastics reinforced with fiberglass. Pipes and pipeline parts made of thermosetting plastics reinforced with fiberglass for water supply, drainage, drainage and sewerage. Air humidifiers. Fertilizers and lime materials. Mineral fertilizers. Packaging and closures. Axial radial double-row ball bearings with a contact angle of 60 °, designed for the perception of axial loads in the spindle units of metal-cutting machines. Installations for induction melting. Installations for heating resistance. Plants for heating solids. Electrical installations for lighting and signal beacons. Electric installations for illumination and signal beacons of aerodromes. Automatic reclosing devices (UAPV) for circuit breakers; residual current-controlled circuit breakers with built-in overcurrent protection (RCBO); residual current-controlled circuit breakers without built-in overcurrent protection (RCCB) for household and similar purposes. Water treatment devices. Auxiliary devices for lamps. Devices for connecting lamps for household and similar purposes. Arcing protection devices for household and similar purposes. Surge protection devices for household and similar appliances (POP). Sound signaling devices for household and similar purposes. Residual current monitoring devices (RCMs) for household and similar

purposes. Devices associated with HBES / BACS networks. Communication devices for conducted emissions measurements. Sling devices for vessels and apparatus. Lamp control devices. Devices, machines and their components. Enzyme preparations. Flanges for valves, fittings and pipelines. Flanges are steel threaded. Metal flasks. Photovoltaic modules. Milling and edging machines. Fruits, vegetables and products of their processing. Fruits, vegetables and products of their processing. Chemical substances. Refrigerators, freezers and freezers. Horseradish. Colored anti-slip coatings. Cements based on Portland cement clinker. Cylindrical cork stoppers. Ball steel flanged valves. Light cords. Crushed stone and gravel from rocks. Electrical and household appliances. Electrical household appliances. Electrical instrumentation and laboratory equipment. Electric cookers, ovens, hotplates and heating elements for catering. Electric incandescent lamps. Electrical appliances for the care of the skin and hair of humans or animals, for household and similar purposes. Electric heating cabinets for catering establishments. Electric sewing machines for household and similar use. Electrical cabinets with forced air circulation, steam cookers, steam-convection cabinets for public catering establishments. Electrical equipment for measurement, control and laboratory use. Electrical equipment designed to transmit signals over low-voltage electrical networks of general purpose and electrical networks of consumers of electrical energy in the frequency range from 3 to 525 kHz. Electroacoustics. Electrical household appliances. Electric generating sets. Electric generator sets with gasoline, diesel and gas internal combustion engines. Electric generator sets with gasoline, diesel and gas internal combustion engines with a capacity of up to 5000 kW. Electric generator sets with gasoline, diesel and gas internal combustion engines up to 5000 kW. Electromechanical devices for control circuits. Electromechanical meters of active energy of accuracy classes 0.5; 1 and 2. Electronic gas-air joint control devices. Electronic slot machines and self-service machines. Electronic systems of residential buildings and public buildings (ESDZ) and systems of management and automation of public buildings (SUAZ). Electronic control systems for residential premises and buildings. Electrical equipment of motor vehicles. Electrical equipment of machines and mechanisms. Electrical equipment for production machines. Electrothermal equipment. Electrical products. Electrical products and spare parts for them, as well as electrical insulating materials. Electrical, electronic and radio-electronic product and equipment. Electrical, electronic and electronic products and equipment used in power plants and substations. Power consuming devices. Fresh tarragon. Cables for portable equipment designed for grounding and advanced protection against short-circuit currents. Cables and cable accessories. Control cables with rubber and plastic insulation. Low-pair telephone cables with plastic insulation in a plastic sheath. Low-voltage power cables for rated voltage up to 450/750 V. Low-voltage power cables for rated voltage up to 450/750 V (u0 / u) inclusive. Low-voltage power cables for rated voltage up to 450/750 V inclusive. Cables with round copper conductors for rated voltage up to 450/750 V inclusive. Mineral insulated cables and terminations for them for a rated voltage of no more than 750. PVC insulated and sheathed cables. PVC insulated cables. Rubber insulated cables. Rubber insulated cables for rated voltage up to 450/750 V inclusive. Communication cables. Power cables with plastic insulation for rated voltage from 6 to 35 kV inclusive. PTFE insulated control cables with reinforced rubber sheath. Cables, wires and cords. Cable ties for electrical installations. Industrial cable reels. Materials (compounds) of structural elements of electrical or optical cables. Insulation and sheathing materials for electrical and optical cables. Insulation materials, sheaths and covers of low-voltage power cables. Materials of

	<p>construction of cables. Low voltage equipment. Cable networks for the transmission of sound and television signals and interactive services. Stationary cross wire with PVC insulation. Industrial blasting cables. Heating wires. Polyethylene sheathed wires for field communication. Self-supporting insulated and protected wires for overhead power lines. Sapper wires. Single-pair telephone distribution wires. Self-supporting insulated wires for overhead power lines. Cable networks for the transmission of sound and television signals and interactive services. Power insulated wires. Low voltage power cables. Piping systems for laying cables. Electrical and fiber optic cables.</p>

8. Reassessment procedure	
PK1-1885 from 19.09.2019	
Basis of the passage of reassessment procedure	Clause 2 part 1 article 24 of Federal Law № 412-FZ - reassessment procedure at least once every two years, starting from the date of passing the previous reassessment procedure
Number of the decision on passing the reassessment procedure	PK1-1885
Date of the decision on passing the reassessment procedure	19.09.2019
Reassessment procedure result	Paragraph 1 part 19 section 24 of Federal Law № 412-FZ on reassessment procedure of an accredited entity and entering the relevant information into the register about the accredited entity in the event that the accredited entity meets the accreditation criteria
Full name of the accreditation expert	Shishova Irina Vladimirovna
Registration number of the entry in the register of experts	00312
Expert organization	Limited Liability Company "Akkord Expert"
Technical expert	Zasyapkina Elena Sergeevna; Zasyapkin Sergey Anatolyevich; Chupakhina Irina Konstantinovna

9. Expansion of the scope of accreditation	
PK1-1885 from 19.09.2019	
Number of the decision to expand the scope of accreditation	PK1-1885
Date of the decision to expand the scope of accreditation	19.09.2019
Address of the new location for laboratory activities	141101, RUSSIA, Moscow region, Shchelkovsky district, Shchelkovo, line 3, house 31, room № 5
Full name of the accreditation expert	Shishova Irina Vladimirovna
Registration number of the entry in the register of accreditation experts	00312
Expert organization	Limited Liability Company "Akkord Expert"
Technical expert	Zasypkina Elena Sergeevna; Zasypkina Sergey Anatolyevich; Chupakhina Irina Konstantinovna
Scope of accreditation	
Description of the scope of accreditation	Metal, ceramic, polymer, paper and cardboard, glass, wooden, and of composite and textile materials packaging. Metallic, cork, combined, polymer and cardboard means of closing. Products intended for children and teenagers. Soothers, pacifiers. Sanitary and hygienic products made of rubber and plastics. Cutlery and table hollowware. Toothbrushes, massagers gums and similar articles. Clothing and products from textile materials and leather. Knitted products. Footwear for children and teenagers. Leather goods. Prams. Bicycles. Toys. Light industry products. Textile materials. Clothes and tailored and knitted goods. Floor coverings and carpet goods. Smallwares. Felt and nonwovens. Footwear. Fur and fur products. Leather and leather products. Furniture and furniture products. Book editions. Rubbers. Lighters. Glasses with filters. Hygienic pads for women. Shutters and blinds. Mirrors. Liquids for electronic nicotine delivery systems. Protective means. Condoms. Surgical gloves. Seats for toilets. Matches. Glass. Firewood. Linoleum. Dry lithopone. Polyvinylbutyral. Pencils. Exercise-books. Ropes. Zipper. Razor systems. Clamps. Rivets. Perfume and cosmetic products. Personal protection equipment. Levelling rules. Gloves. Films and tapes. Polymer composites. Celluloid. Pulp. Buttons. Rubber. Spectacle lenses Domestic vacuum flasks. Charcoal. Fertilizers. Foil. Means for measuring electrical and magnetic quantities. Cylindrical zinc-manganese elements. Printing types. Electrical and household appliances. Personal electronic computers. Technical means connected to personal electronic computers.

Electromusical instruments. Excitation systems. Uninterruptible power supply systems. Meters. Automatic switches, residual current devices. Electrical energy switchgear. Electrical devices for the control of electrical installations. Laser products. Low-voltage switchgear and controlgear. Transformers. Voltage indicators. X-ray apparatus. Electric networks. Starters. Fuses. Lamps. Lamp caps and holders. Accumulators and batteries completed from them. Low-voltage switchgear and controlgear assemblies. Apparatus for measuring electrical energy, for measuring insulation resistance, for measuring loop impedance. Lamp controlgear. Inductive and capacitive sensors. Technical means of all purposes, connected to low-voltage electrical networks of general purpose, or installed at power plants. Radio communication equipment. Safety, connecting, sun protection devices for monitoring insulation, gas supply. Electronics. Terminal blocks. Air conditioners. Manipulators. AC resistance measures. Modules, robots. Conductive materials. Resistors. Luminaires. Busbar trunking. Electrical, electronic and radio-electronic product and equipment. Communication network equipment. Ultra low power active medical implants and related peripheral devices. Mobile and portable radio equipment. wireless equipment of digital video links. Equipment for wideband transmission systems. Power supplies. Information technology equipment. Signal generators. Interfaces. Cyclic, point-to-point and continuous path of numerical control devices. Digital equipment. Electric drives. Electrical equipment for measurement, control and laboratory use. Insulation and sheathing materials for electrical and optical cables. Low-voltage equipment. Electrified tool. Cables, wires and cords. Pneumatic drives and pneumatic devices. Machinery and equipment. Tool. Electrical machines. Processing equipment. Devices for electric welding and plasma treatment. Measuring installations, complexes, signaling devices, recorders. Concrete pumps. Crushers. Steam boilers. Autoclaves. Convector. Machines. Household gas heating appliances. Household gas appliances. Water heaters. Lamps, gas burners. Heating boilers, thermal gas equipment. Radiation emitters. Gas pressure regulators, reducers. Devices and automation means for gas burners and apparatus. Gas control and safety valves. Flexible connections. Cylinders. Pumps. Hose connections, connecting devices. Vessels and apparatus. Distillation units. Turbines. Milling cutters. Refrigeration systems and devices. Lubricants, oils and special fluids. Used motor and industrial oils. Used petroleum mixtures. Petroleum and petroleum products. Fuel. Lubricating greases. Filters and filter elements. Boiled oil. Simple substances, chemical compounds and their mixtures. Solvents. Detergents. Medical instruments. Surgical, dental, orthopedic instruments. Medical products. Medical gauze, gauze cuts and napkins, non-woven medical. Adhesive plasters. Syringes. Needles. Exfusion, infusion and transfusion devices. Tracheotomy tubes. Expanders. Catheters. Prostheses. Endovascular prostheses. Implants. Valves. Contact lenses. Reusable diaphragms. Anaesthetic machines. Sterilization and disinfection equipment. Medicines for veterinary use. Cotton wool. Plywood. Joinery and gypsum boards. Glued plates. Parchment. Paper. Solid electrical insulating materials. Bitumen. Building solutions. Brick. Building materials and products. Foam glass products. Gypsum concrete panels. Dry building mixes. Roofing and waterproofing materials. Solvents, washes, driers. Concrete. Putties. Resins. Mineral wool products. Primers. Paints. Adhesives. Mastic. Laminated plastics. Insulation materials. Warming plates. Baths. Sanitary fittings. Fittings and parts of pipelines. Closed-cell phenoplast. Asbestos cardboard. Polishing and grinding wheels. Pumps. Sealing gaskets. Ovens. Tile. Latex. Bellows. Acoustic elastic materials. Flush cisterns. Window and door blocks. Sealants. Road marking wares. Parquet products. Natural sand. Side stones. Crushed stone and gravel. Soil. Ores. Mineral powders. Disperse

	<p>sandy and clay soils. Asphalt concrete. Reinforced concrete products. Ionites. Paints and varnishes and materials. Packings. Welded joints. Decorative plaster, adhesive, base coats and patching putties compositions. Rammers. Cement. Dyes. Panels. Pigments and fillers. Floors. Roofing material. Steel. Load, traction, drive chains. Pipes. Self-tapping screws. Wood screws. Bolts, screws, studs. Nuts, washers. Flanges of vessels and apparatus. Ferrous and non-ferrous metals. Industrial waste products. Slings. Splints. Brake linings. Tractors. Friction articles. Food products.</p>

10. Reduction of the scope of accreditation	
S-1039 from 25.04.2019	
Basis for reducing the scope of accreditation	According to the application
Number of the decision to reduce the scope of accreditation	S-1039
Date of the decision to reduce the scope of accreditation	25.04.2019

11. Alteration. Other changes	
IZ-130 from 20.12.2018	
Number of the change decision	S-1039
Date of the change decision	20.12.2018

12. Expansion of the scope of accreditation	
Ra-262 from 07.08.2018	
Number of the decision to expand the scope of accreditation	Ra-262
Date of the decision to expand the scope of accreditation	07.08.2018
Full name of the accreditation expert	Samsonova Tatiana Yurievna
Registration number of the entry in the register of accreditation experts	00816
